

Non-Target Animal Trapping Case Report

It is estimated that hundreds of thousands of "non-target" animals fall victim to snares and leghold and Conibear traps each year. Please complete this form if you have experienced an incident of a dog, cat, or other animal being trapped. Born Free USA united with API will use this information to educate others and, hopefully, to help prevent other animals from suffering in traps in the future. Our organization conducts research, tracks trapping incidents across the country, and speaks out against the use of body-gripping traps.

If you have photographs or recorded images, please attach them to this completed form, and then return this form to us at:

Trapping Incident
c/o Born Free USA united with API
P.O. Box 22505
Sacramento, CA 95822

Thank you!

Your Information:
